In this 6th edition of

AN EXCITING AND ONE OF A KIND
OPPORTUNITY FOR US WEB
DEVELOPMENT ENTHUSIASTS

WE ARE COMMITTED TO
CREATING A VALUABLE
SOLUTION TO THE BURNING
MENTAL HEALTH PROBLEMS

PROBLEM STATEMENT

Our collective mental health is getting worse - But why?

Unhealthy diets, lack of physical exercise, loneliness, family break up, childhood neglect and trauma, the pressure of competition in schools and the workplace — the list goes on.

Investment is wrongly weighted, with too much or not enough in acute/crisis services and not enough in early intervention and prevention.*

Mental health is a lifelong journey,
Often we simply don't know what works and what doesn't.
That would be OK if our current responses were producing great results everywhere, but they are not.
It's hard to innovate or improve in a world like this.

Something needs to change.

- Our Mission and Goals

Personal wellbeing space with effective tools designed for mental and physical health wellness

Peer support to stay motivated about similar goals

Open minded & safe community

Long term wellness habits

We need spaces to share feelings with open-mindedness. Incentive to stay active mentally and physically, to eat, drink, and sleep well. And reminders to take breaks. Self-reflection and a strong sense of belonging.

Community is at the heart of Yuji.

Being heard is an important part of being human.

People feel more driven to talk about their feelings under a sense of anonymity and ease that messaging provides

It's anonymous and completely free.

WHAT WE WANT TO DO ABOUT IT

Personal wellbeing tools

- Journal, daily prompts
- Meditations
- Exercises
- Diet tools
- Talking pet Yuu to take care of and converse with
- Time management tools

Peer support to stay motivated about similar goals

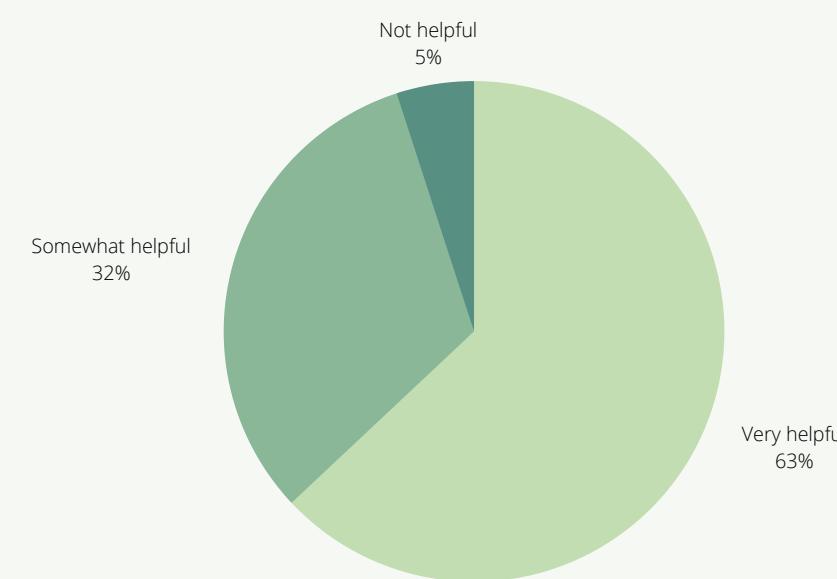

Topics & recommendations

Safe & Anonymous Posting & Live Chat

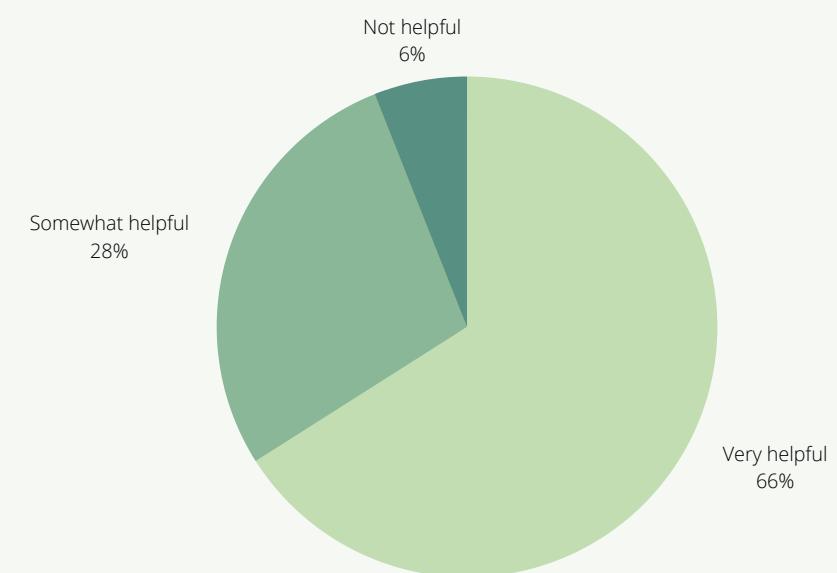

Open-minded live conversations

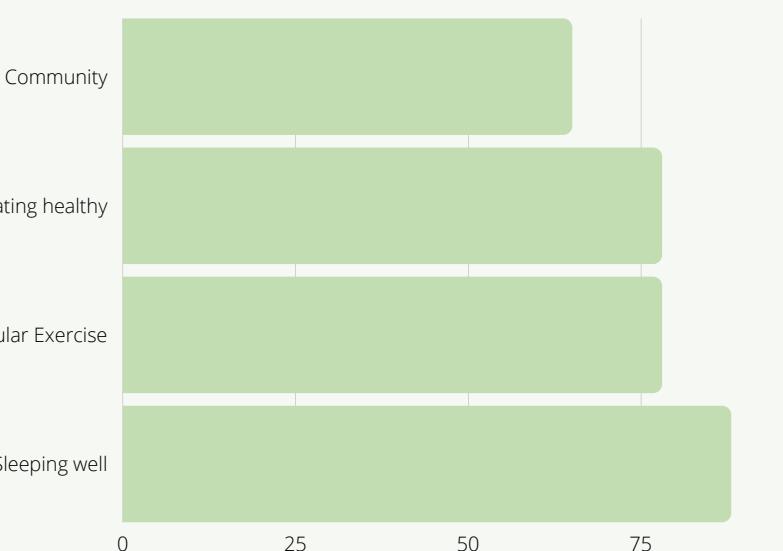

95 % of respondents worldwide found communicating helpful in alleviating anxiety or depression as of 2020*

Talking to others helped 78 % percent of respondents and making lifestyle behavioural changes helped 73% of respondents alleviate feelings of anxiety & depression in 2020**

94% of respondents worldwide found making lifestyle behavioural changes helpful in alleviating anxiety or depression as of 2020*

Percentage of older adults who thought communicating with the community and close ones, sleeping well, regular exercise and eating healthy were extremely or very important to staying healthy as of 2020***

WHY IT IS IMPORTANT

It is hard to stay committed to long term mental well-being and self-development goals with a lack of consistent emotional support.

Yuji provides communication and a community packed with the most effective self-help tools.

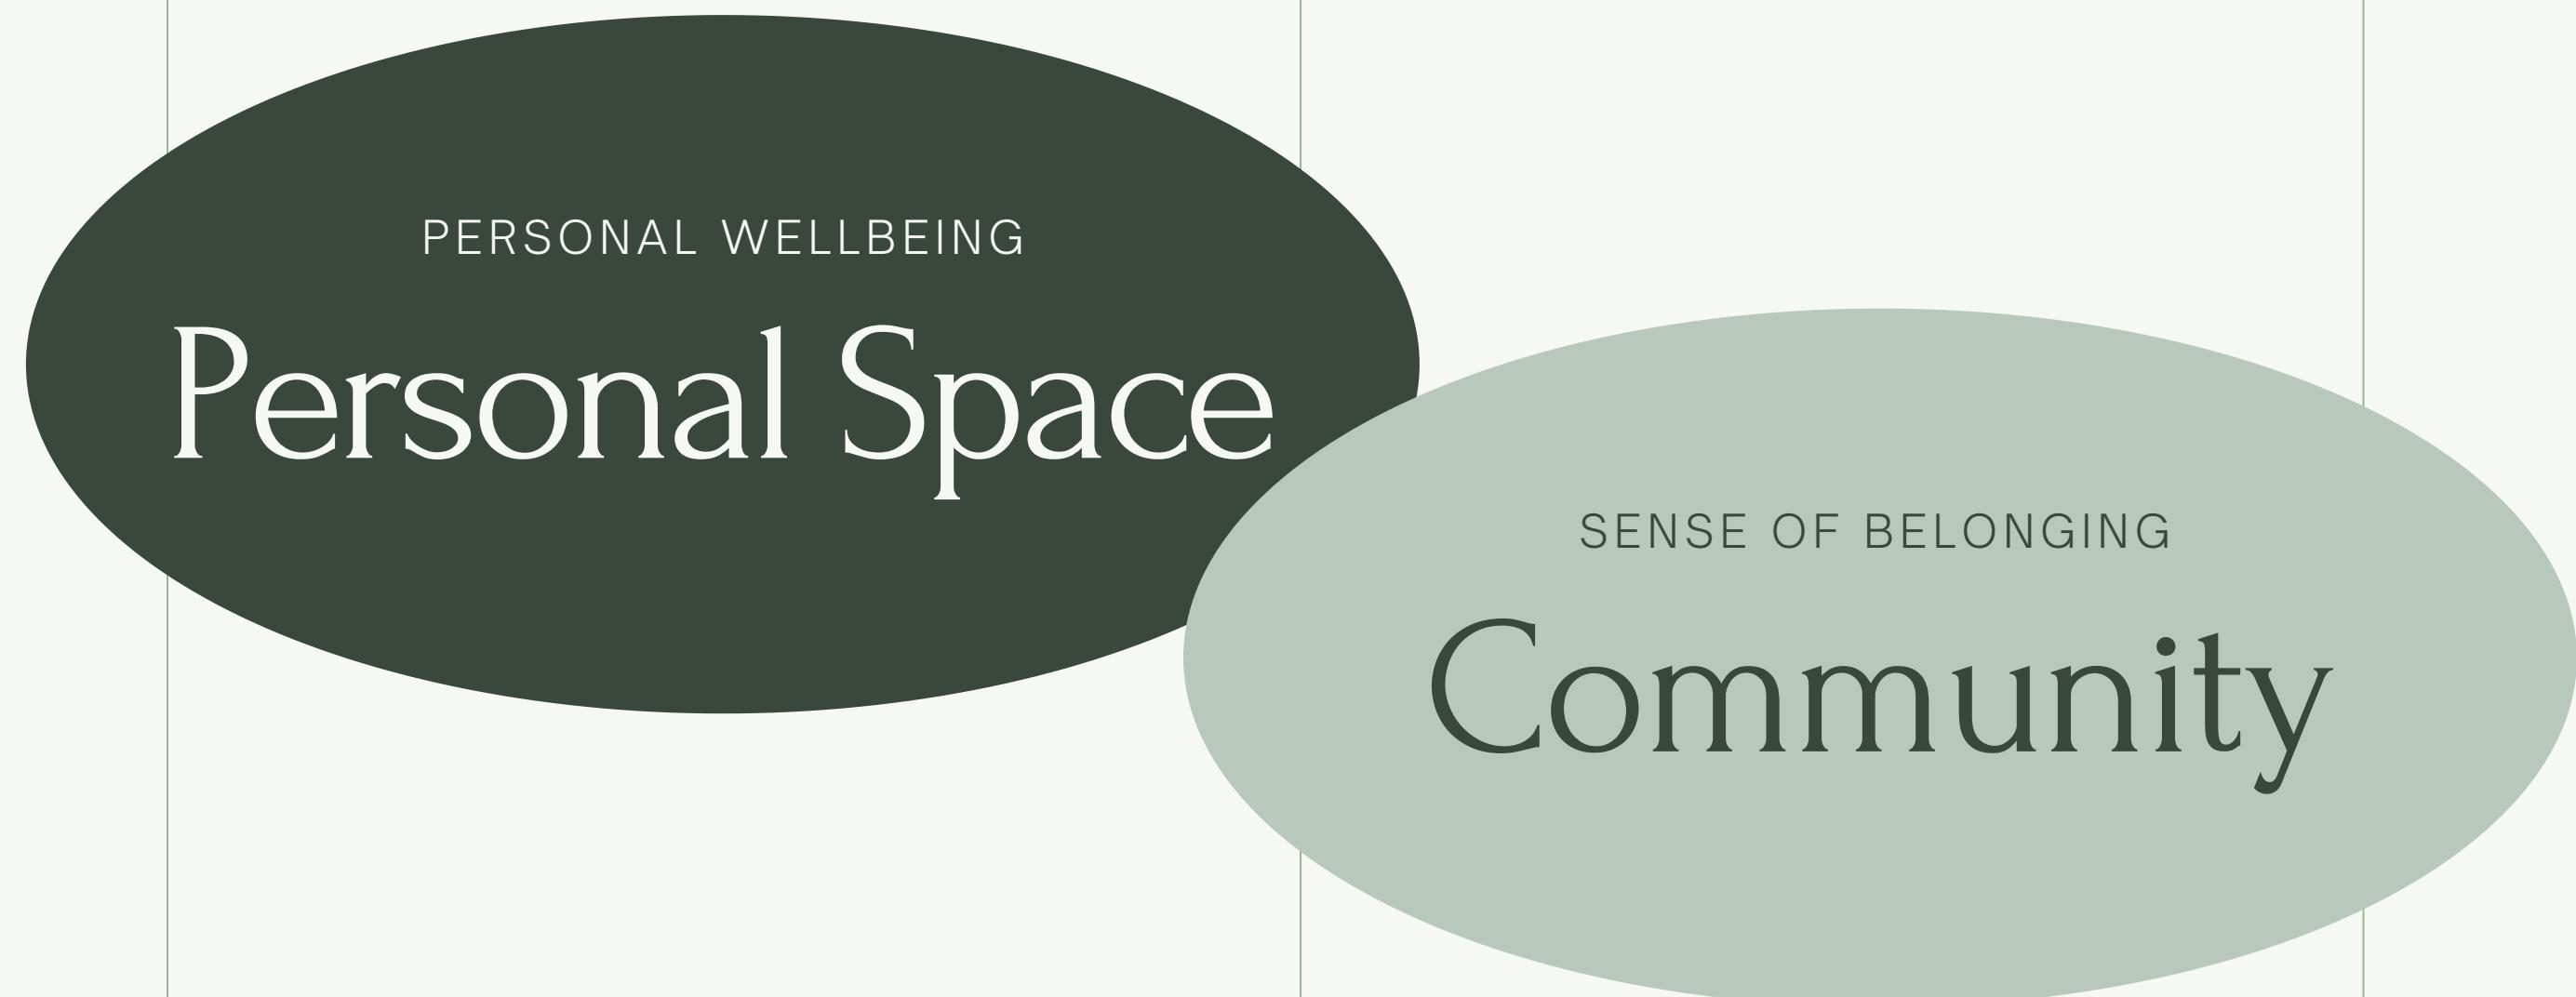

At Yuji, someone is always standing by,
And when times get rough,
Someone is always available to listen

User in
distress

1.

DIET

Eating healthy nutrition rich food

YUJI DIET IS A GENTLE MEAL PLANNER & HEALTH WELLBEING TOOL.

Along with creator collaborated **health articles**, the Yuji diet provides users various nutrition-focused **diet plans** to choose from, and the ability to create their own.

The tool features data on the nutrition content of foods and helps users **meal plan**, to reach their nutrition goals.

It integrates an important and popular feature of tracking water consumed.

Drinking reminders are sent to users on user-set frequency, set default as the WHO organization recommendations.

A DAILY ROUTINE FOR LONG TERM WELLNESS.

2.

MEDITATIONS & EXERCISES

Mental and physical
self care

Creator collaborated
study/focus music, meditation
music, guided meditations,
exercises, and yoga routines,
with timers.

Sorted into libraries that can
be personalized and saved by
the users.

3.

TO DO

Productivity & Focus

TASK MANAGEMENT WITH TIME BLOCKING

When things to be done are written down, they seem more manageable. To-do lists help in staying organized and reduce stress.

The tasks can be time blocked and broken down into Pomodoro sessions.

4.

JOURNAL

Making self-talk a habit

Journaling helps with comprehension, keeps our memory sharp, improves mood by helping prioritize problems, fears, and concerns. Providing an opportunity for positive self-talk and identifying negative thoughts.

SELF REFLECTION

Yuji provides journal prompts that can help narrow down the focus and help make writing a habit.

This section also includes a mood & sleep tracker.

Yuu

Virtual Talking Pet

Yuu is a smart Froggie friend who helps users deal with negative self-talk in times of distress

Yuu helps users keep track of their journals, mood and sleep

Yuu can help remember tasks and stay by keeping time as the user finishes them

Yuu wants the user to take breaks and drink enough water

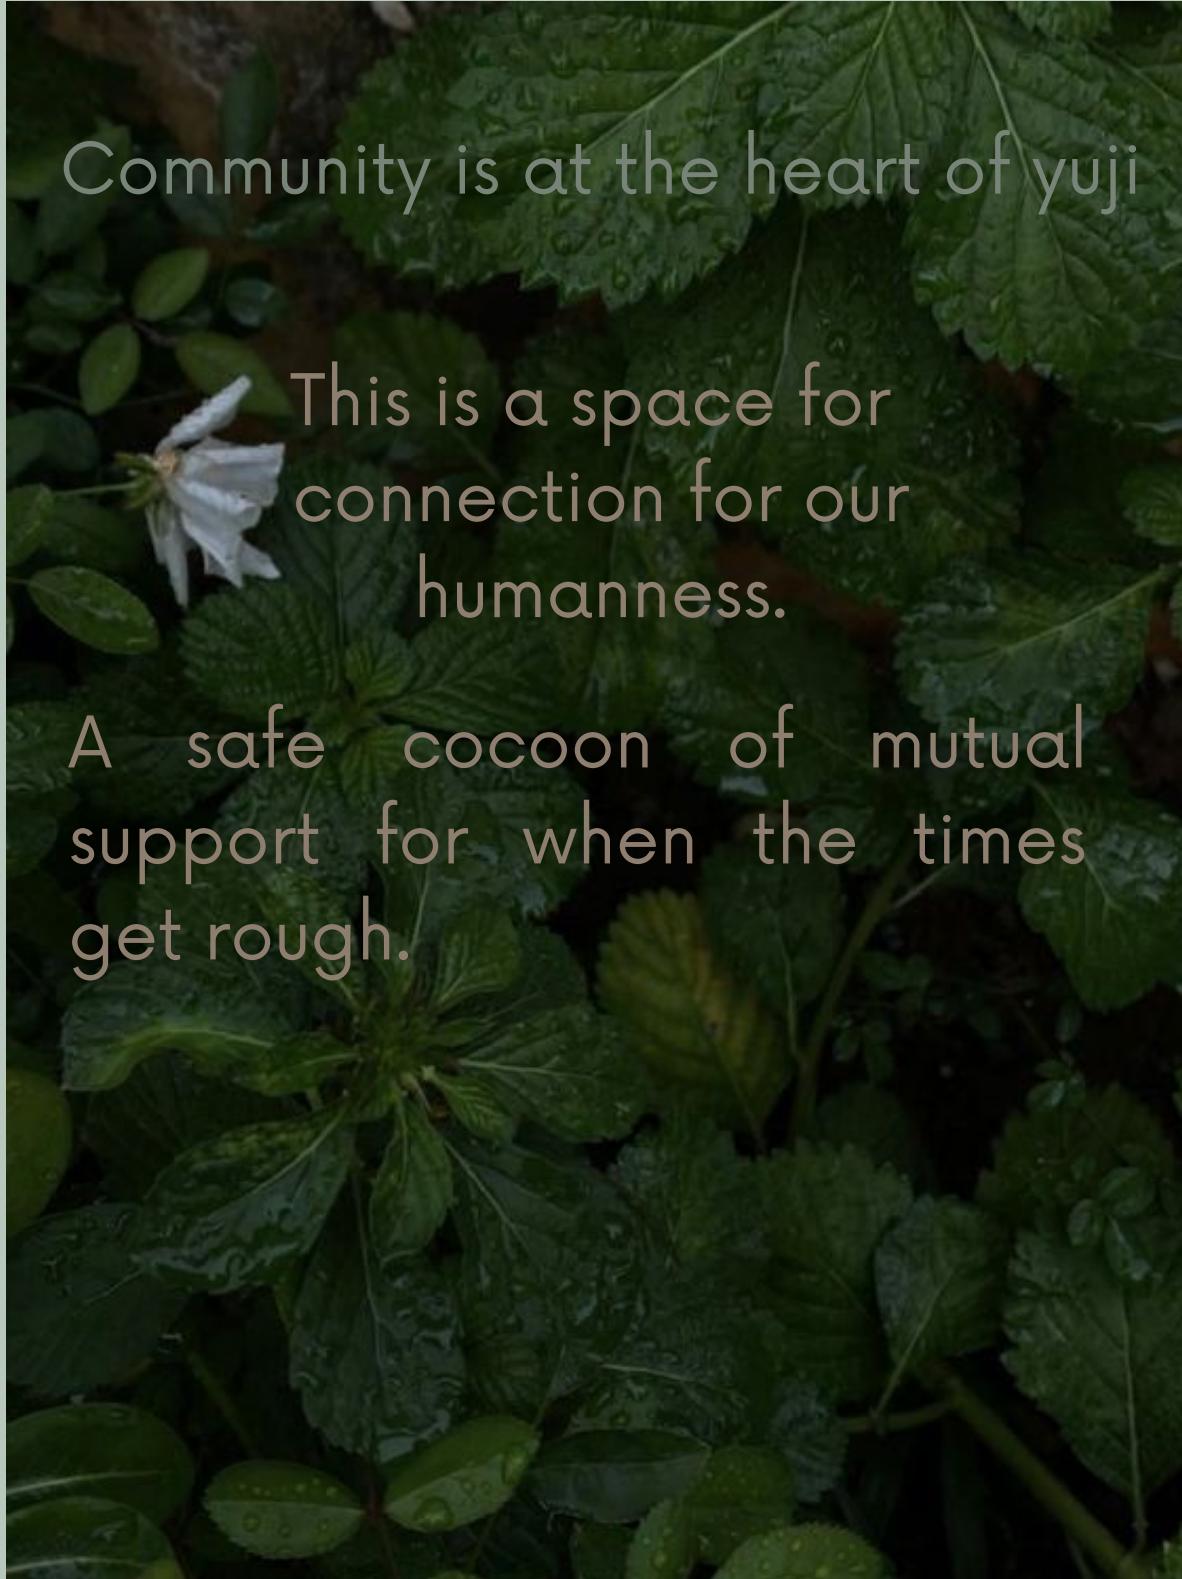

Yuu has many secrets from his ancestors to share with the user to help calm them down & grow - recipes, meditations, and activities and in return, users can take care of Yuu.

A STRONG SENSE OF BELONGI NG.

5. **COMMUNITY**

Being heard is an important part of being human

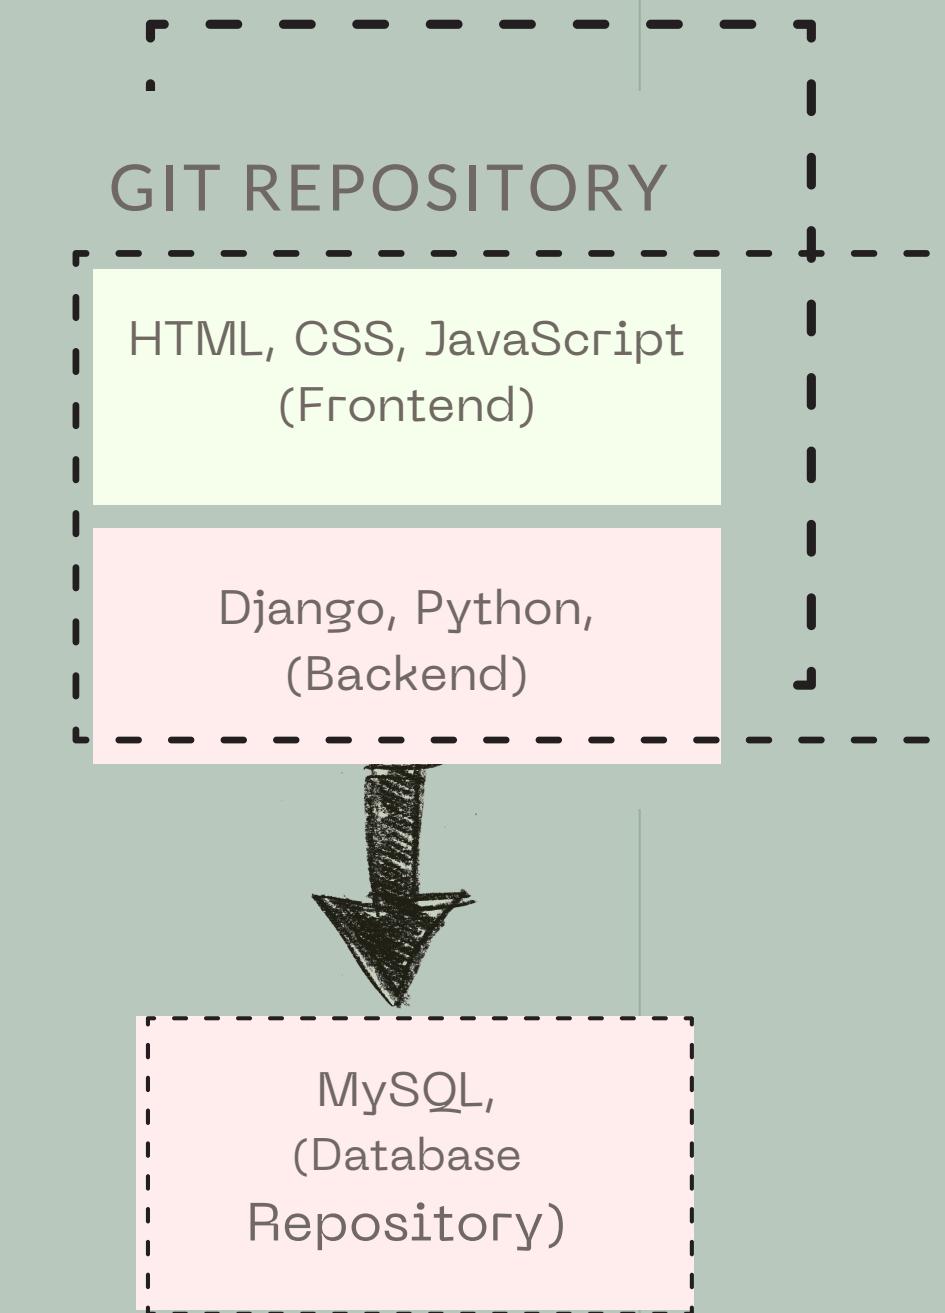

Users can:

- Share their heart out on topics that interest them.
- Read from a feed they choose.
- And make the community a catalyst for self-growth

The feed is completely unarmed of competition, Yuji is a community for healthy growth.

TECHNOLOGIES WE'RE USING

- 1 Django
- 2 html5, CSS, JavaScript
- 3 MySQL

1. BACKEND

GitHub Repository Link:

<https://github.com/codingsneha/YUJI>

DATABASE & DJANGO PROJECT

Something like this:

The screenshot shows a GitHub repository page for the user 'codingsneha' named 'YUJI'. The repository is public and contains one branch ('main') and no tags. The last commit was made 3 minutes ago by 'codingsneha' and involved two commits. The repository includes files for a Django project ('imgs', 'yuji'), a license ('LICENSE'), and a README ('README.md'). The README content is as follows:

```
YUJI
YUJI provides personal wellbeing tools along with a present community that catalyses growth
```

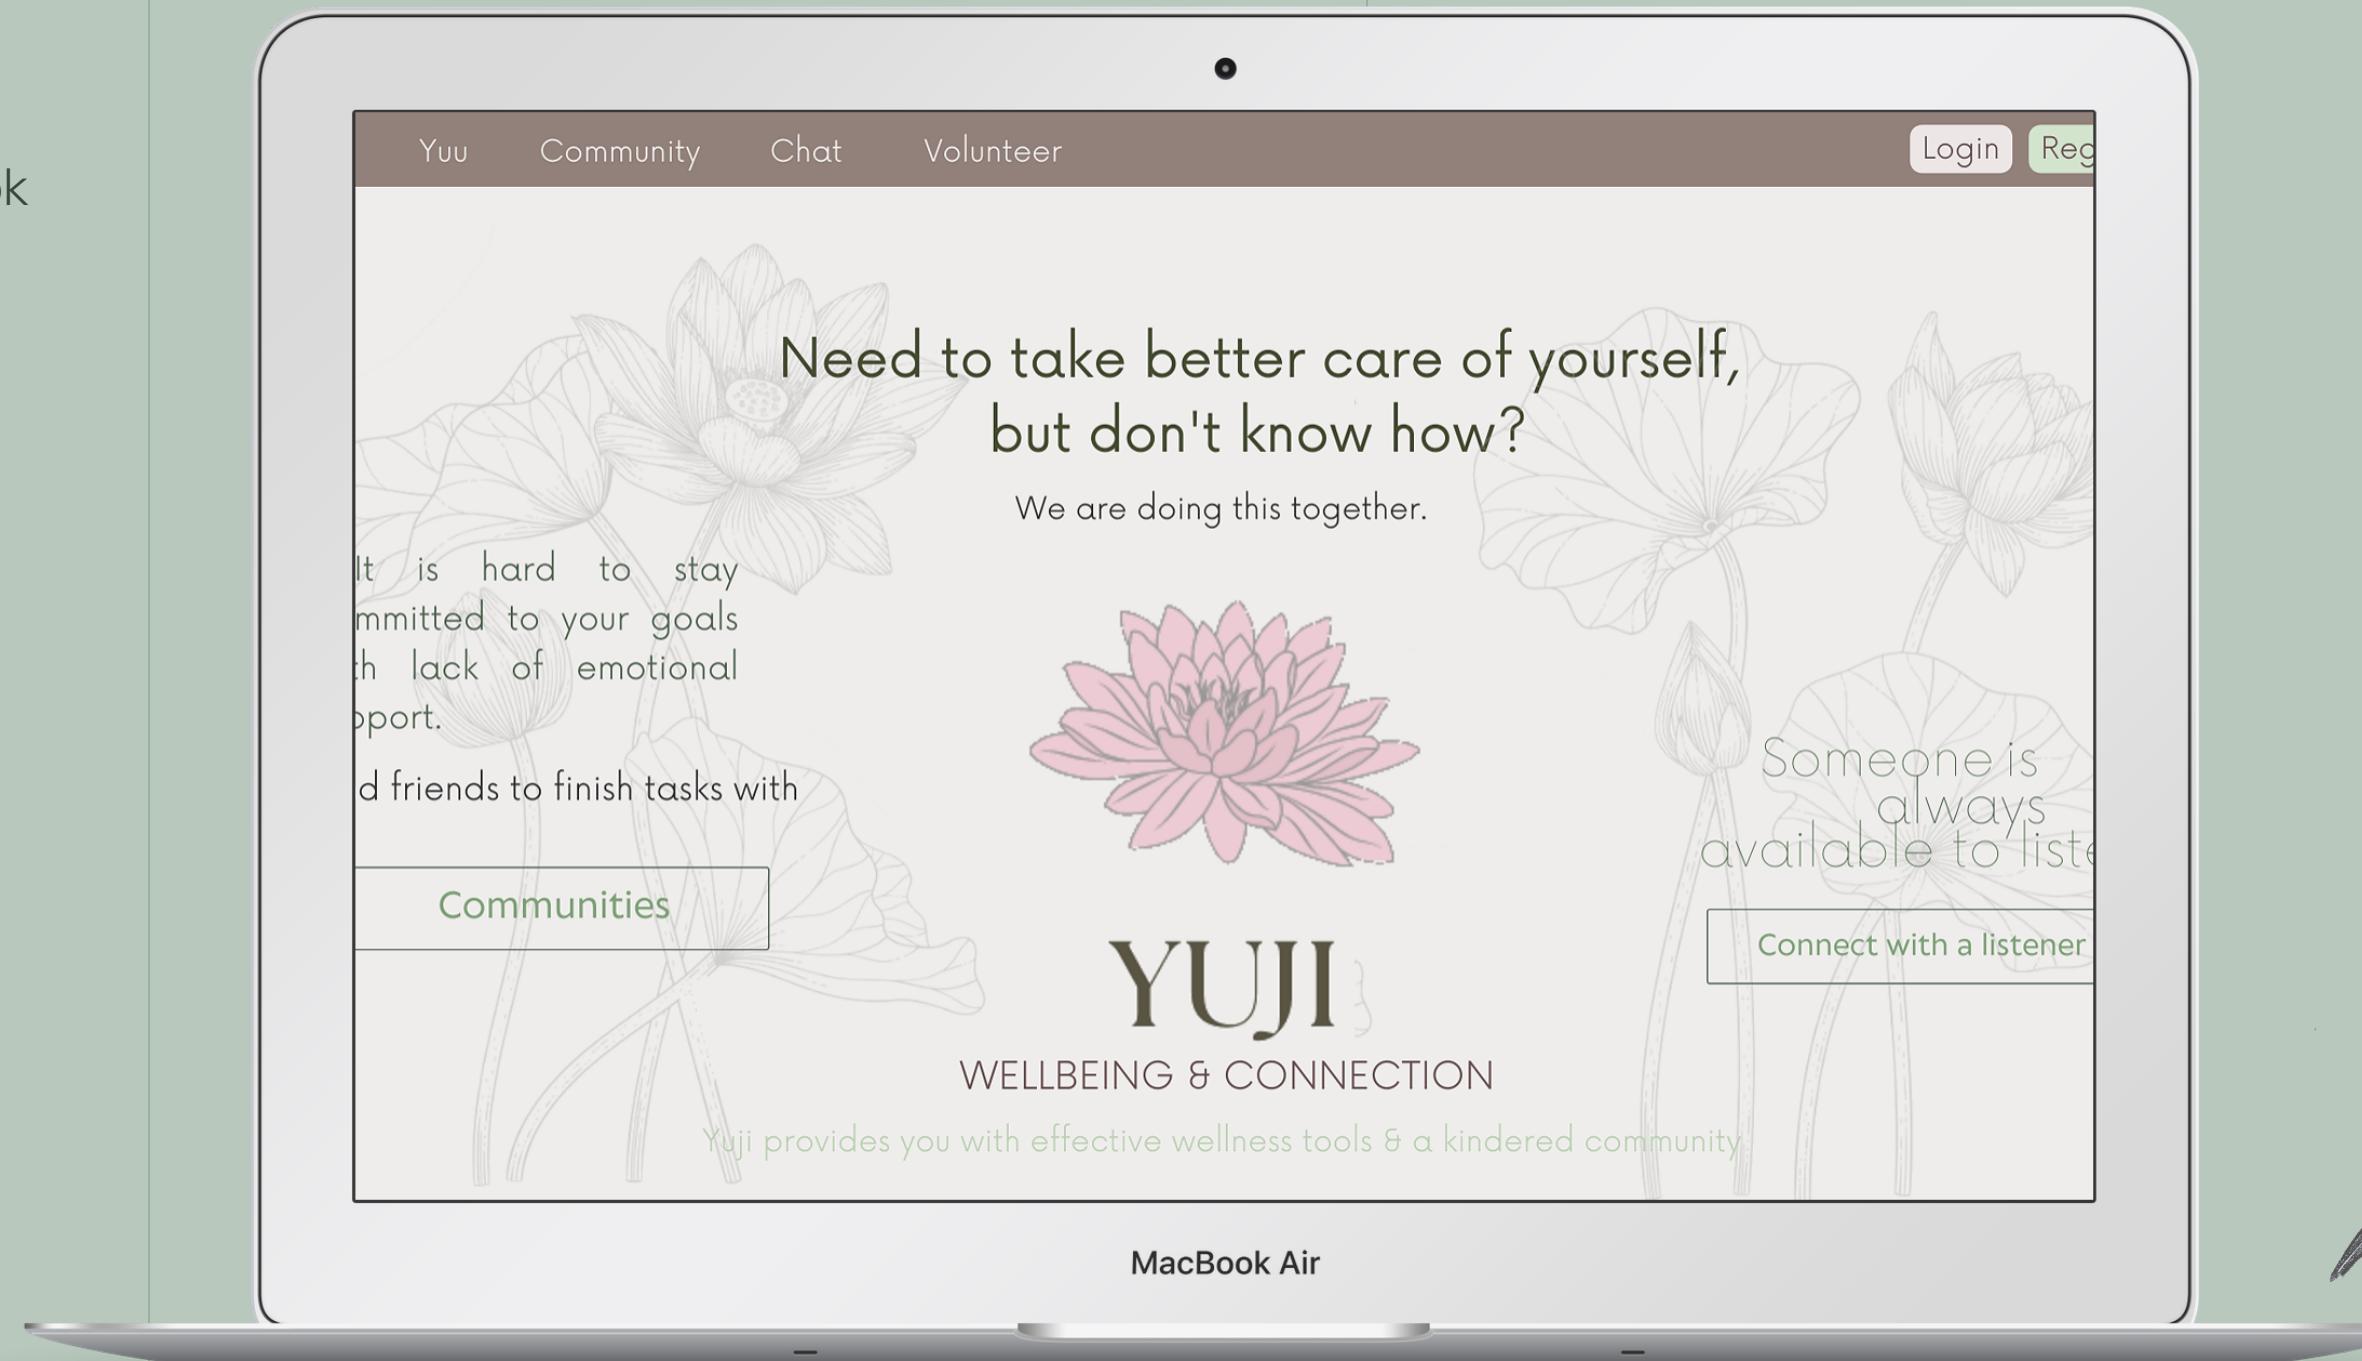

The repository has 0 stars, 1 watching, and 1 fork. It also lists a 'Readme' file, an 'MIT License' file, and a 'Settings' section.

WORKFLOW

FUTURE ASPECT

Our Goals

-  Cross-platform deployment
-  AI, AR & ML inclusions
-  Facilitate professional & licensed therapy

according to Verified Market Research
the personal wellbeing market is increasing
rapidly and will increase by 5.08% by 2022

In the very near future, we want to deploy Yuji as a **mobile application**, **upscale** and integrating many functionalities android is capable of adding.

Like developing augmented reality, enabling users to take Yuu on **daily walks** with them.

We want to facilitate therapists-customers interactions. And offer one-on-one therapy and personal mentoring.

Our main goal is to keep Yuji inclusive, effective, safe and up to date with the needs of Yuji users.

And keep the Yuji vibe going.

Thank you

OSS Club, AIT for organizing Innerve 6.0
and for creating this fantastic opportunity

And thank you to the sponsors of this hackathon
